The Inversion of Influence

Old Model
- Elites have access to more/better information
- Elites’ interests interconnected with those of mass
- Becoming an “elite” open to all

New Reality
- Peer-to-peer influence more powerful than top-down
- Increasing distrust among mass population
- Mass movements based on dissatisfaction and urgency

The Divide
- Democratization of information and more information
- High-profile revelations of greed and misbehavior
- Income inequality
