Spring Update: Trust and the Covid-19 Pandemic

U.S. Findings

#### Edelman Trust Barometer 2020

2020 Edelman Trust Barometer

#### Spring Update: Trust and the Covid-19 Pandemic

Methodology

Online survey in 11 markets:

Canada, China, France, Germany, India, Japan, Mexico, Saudi Arabia, S. Korea, U.K. and U.S.

13,200+ respondents total

All fieldwork was conducted between April 15 and April 23, 2020

January 2020 Trust Barometer fieldwork was conducted between October 19 and November 18, 2019

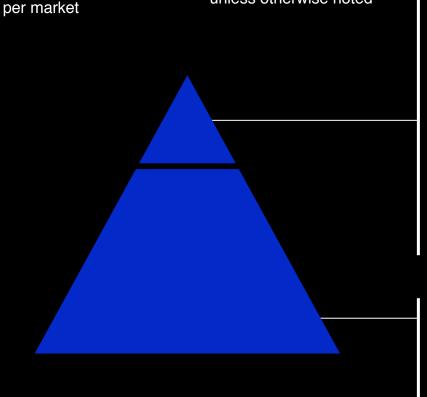

11-market global data margin of error: General population +/- 0.9% (N=13,200), informed public +/- 3.0% (N=1,100), mass population +/- 1.0% (N=10,741+).

Market-specific data margin of error: General population +/- 2.8% (N=1,200), informed public +/- 9.8% (N=100), mass population +/- 2.9% to 3.7% (N=min 691, varies by market).

#### **General Online Population**

All slides show general online population data unless otherwise noted

**100** respondents in each market Represents **19%** of total global population

#### Must meet 4 criteria

- Ages 25-64
- College-educated
- In top 25% of household income per age group in each market
- Report significant media consumption and engagement in public policy and business news

Mass Population

All population not including informed public

Represents **81%** of total global population

# TRUST AT ALL-TIME HIGHS

#### A RECORD RISE IN TRUST; TRUST INDEX AT ALL-TIME HIGH

#### Trust Index

11-market global average increases 6 pts., with increases in 10 of 11 markets

Distrusting markets decline from 5 to 2

**2020 Edelman Trust Barometer Spring Update.** The Trust Index is the average percent trust in NGOs, business, government and media. TRU\_INS. Below is a list of institutions. For each one, please indicate how much you trust that institution to do what is right. 9-point scale; top 4 box, trust. General population, 11-mkt avg.

# DATA IN DETAIL FULL QUESTION TEXT FOR ANSWER CHOICES THAT WERE ABBREVIATED IN THE REPORT

**BUS\_TRST.** If a company or business were to do each of the following, how would it impact your trust?

- Donating needed equipment to hospitals, healthcare facilities, and educators
- Staying in daily contact with local authorities and public health officials in order to be as responsive as possible to emerging pandemic-related needs and challenges
- Cooperating and collaborating with companies that are normally their competitors if it can result in faster development of more effective responses to the pandemic
- Putting more money into research and innovation to help develop new solutions to our pandemic-related challenges

**CEO\_CHOICE.** You are about to see two choices. We want you to choose **the one that best describes how you want CEOs to respond to the pandemic**.

 CEOs should be aggressive in getting their companies back to normal operations even if it means reopening workplaces and bringing people back to work sooner than most health officials recommend / CEOs should be conservative in getting their companies back to normal operations even if it means waiting longer to reopen workplaces and bring people back to work until the virus has been completely brought under control **CRISIS\_LEAD.** The current pandemic places many demands on our leaders. Which of the leaders listed below do you believe are doing an outstanding job meeting the demands being placed upon them by this crisis?

- · Your national government leader
- Your state or local government leaders
- · CEOs and business leaders in general
- The CEO or head of the organization you work for
- Heads of non-governmental organizations (NGOs)
- Global health authorities and the people who run major health organizations (WHO, CDC)
- · Journalists and news anchors
- · Academics and scientists

**CV1\_POP.** Please indicate your level of agreement with the statements below using a nine-point scale where one means "**strongly disagree**" and nine means "**strongly agree**".

 I am very concerned about losing, or having lost my job, due to the pandemic and not being able to find a new one for a very long time **CV1\_Q13.** Please indicate how much you **trust** each of the following sources to tell you the truth about the virus and its progression. Use a nine-point scale where one means that you "**do not trust them at all**" and nine means that you "**trust them a great deal**".

- WHO (World Health Organization) officials
- · Your doctor or healthcare provider
- The leader of your country
- · Local government leaders
- The news media
- · CEOs of companies in the health and healthcare business
- A non-profit organization or NGO representative
- A government official
- A person like yourself
- · Doctors and other health experts you follow online
- Scientists
- Journalists
- The CEO of the organization you work for
- Social media influencers that you follow online

# DATA IN DETAIL FULL QUESTION TEXT FOR ANSWER CHOICES THAT WERE ABBREVIATED IN THE REPORT

**GOV\_CHOICE.** You are about to see a series of two choices. For each pair, we want you to choose **the one that you agree with more**.

- The government's highest priority should be saving as many lives as possible even if it means the economy will sustain more damage and recover more slowly / We are approaching the point where it is becoming more important for the government to save jobs and restart the economy than to take every precaution possible to keep people safe from the virus
- The government is restricting my freedom of movement and my ability to gather with others more than it should be allowed to in response to the pandemic / Any current pandemic-related restrictions on my freedom of movement and ability to gather with others are entirely reasonable and appropriate

**GOV\_TRST.** If the government were to do each of the following, how would it impact your trust?

- Require health screenings for anyone trying to enter the country even after the pandemic is over
- Restrict immigration and international travel even after the pandemic is over to help prevent any new disease outbreaks from getting into the country

- Greatly increase its spending on healthcare, healthcare services and building up our hospitals' intensive care unit capacity
- Ensure that necessary medical and emergency response supplies and equipment are being made in this country so that we will never need to rely on other countries in a crisis

**NEW\_PER\_NATGOV.** When it comes to how it has performed thus far during the COVID-19 pandemic, how well do you believe the national government of your country is currently doing each of the following? Please indicate your answer using the 5-point scale below.

• Ensuring that medical supplies and good quality medical treatment are available even in the poorest areas

**NEW\_PER\_BUS.** When it comes to how it has performed thus far during the COVID-19 pandemic, how well do you believe business in general is currently doing each of the following? Please indicate your answer using the 5-point scale below.

 Implementing safety measures to protect both workers and customers **PER\_BLF.** Please indicate your level of agreement with the statements below using a nine-point scale where one means **"strongly disagree"** and nine means **"strongly agree"**.

 This pandemic has made me realize just how big the gap in this country is between the rich and the working class, and that something needs to be done to more fairly distribute our country's wealth and prosperity across the population

# DATA IN DETAIL FULL QUESTION TEXT FOR ANSWER CHOICES THAT WERE ABBREVIATED IN THE REPORT

**TRU\_INS.** Below is a list of institutions. For each one, please indicate how much you **trust** that institution to do what is right using a 9-point scale where one means that you "**do not trust them at all**" and nine means that you "**trust them a great deal**".

- The central/federal government
- Your local/state government

**POP\_EMO.** Some people say they worry about many things while others say they have few concerns. We are interested in what you worry about. Specifically, how much do you worry about each of the following? Please indicate your answer using a nine-point scale where one means "I do not worry about this at all" and nine means "I am extremely worried about this".

- Automation and/or other innovations taking your job away
- Your job being moved to other countries where workers are paid less
- Cheaper foreign competitors driving companies like yours
   out of business
- Immigrants who will work for less competing for your job
- Not having the training and skills necessary to get a good paying job
- International conflicts about trade policies and tariffs hurting the company you work for

- Losing your job as a result of a looming recession Permanent jobs with benefits being replaced by freelance, gig-economy or short-term jobs that do not offer benefits
- Permanent jobs with benefits being replaced by freelance, gig-economy or short-term jobs that do not offer benefits
- People like you losing the respect and dignity you once enjoyed in this country

**WHOSE\_JOB**. There are many challenges associated with facing a pandemic. In meeting those challenges people will need to rely on 5 key societal institutions -- business, government, the media, NGOs and global health authorities. We are interested in knowing which one or more of these five institutions you expect to take a leading role in addressing each of the challenges below.

- Developing treatments and a vaccine for COVID-19
- Developing and putting in place the necessary policies and procedures to slow and control the spread of the virus
- Feeding the poor, the newly unemployed, and others who cannot easily get access to or afford food
- Creating tools and services that make it easier for people to stay productive and emotionally connected while living in lockdown
- Keeping people well-informed about the latest thinking on how to avoid catching the virus, the availability of tests, and progress towards finding a cure

- Keeping people well-informed about where to go to get help and support and how to access any government assistance available to help them cope with the financial impact of the pandemic
- Giving financial relief and support to people who have lost their jobs or livelihood
- Keeping the country's economy running as well as possible
- Helping small businesses survive until they can reopen
- Developing guidelines for when it is okay to start relaxing social distancing requirements so that people can begin returning to work, schools can be reopened, and people can start to engage in group activities again
- Planning and preparing for how the country will get back to normal after the worst of the pandemic is over

## ANALYSIS IN DETAIL INSTITUTIONAL COMPETENCE AND ETHICS SCORES

In our May Spring Update to the 2020 Trust Barometer, we asked: "When it comes to how it has performed thus far during the COVID-19 pandemic, how well do you believe [INSTITUTION] is currently doing each of the following?"

All scores are based on a net of the top 2 box (doing this very well or doing this well), minus the bottom 3 box (doing mediocre on this, doing poorly on this, or failing at this) responses to the question.

Where an institution was placed along the competence

(horizontal) or ethical (vertical) dimension has determined by its average net score across its relevant items, detailed in the chart below. Positive average nets placed the institution to the right of the vertical or above the horizontal, and negative nets placed the institution to the left of the vertical or below the horizontal.

Please note that this analysis is not meant to be read as plotted data on an X-Y axis. The institutions were placed in one of the four quadrants based on whether their overall competence and ethics scores were positive or negative. The arrows represent an approximation of the direction of movement for each institution based on where their general performance was prior to the pandemic versus where they are today, based specifically on their performance in response to the pandemic to date. Because the questions used to determine competence and ethics were not the same across the two studies, this chart should be viewed as a qualitative rather than a quantitative representation of relative performance.

BUSINESS	GOVERNMENT	MEDIA	NGOs
COMPETENCE ITEMS			
<ul> <li>Protecting essential employees</li> <li>Ensuring that the products and services that people need most are readily available</li> </ul>	<ul> <li>Taking care of people who are suffering pandemic-related financial hardships</li> <li>Developing solutions to our pandemic-related medical problems and challenges</li> <li>Preparing for the eventual recovery</li> </ul>	<ul> <li>Being a reliable source of useful and accurate information</li> <li>Doing original, investigative reporting to help you understand the full story behind the pandemic and its potential lasting impact</li> <li>Correcting false information about the virus</li> <li>Holding other social institutions such as business and government accountable</li> </ul>	<ul> <li>Coordinating local relief efforts</li> <li>Coordinating global efforts to combat and control the spread of the virus</li> <li>Taking care of people who are suffering pandemic related financial hardships</li> <li>Developing solutions to our pandemic-related medical problems and challenges</li> </ul>
ETHICS ITEMS			
<ul> <li>Putting people before profits</li> <li>Helping their smaller suppliers and business customers stay in business</li> <li>Protecting their employee's financial wellbeing and safeguarding their jobs</li> </ul>	<ul> <li>Putting aside political partisanship and working across ideological divides to get things done</li> <li>Ensuring that medical supplies and good quality medical treatment are available even in the poorest areas</li> </ul>	<ul> <li>Not allowing politics and ideological biases to affect how they report pandemic news and information</li> </ul>	NOTE: There were no ethics performance items asked for NGOs, so for the purposes of this analysis we assumed that the NGO ethics score stayed the same as it was in January
