Trust in Singapore

Edelman

21st ANNUAL EDELMAN TRUST BAROMETER

Methodology

Online survey in 28 countries*

33,000+ respondents

2021 Edelman Trust Barometer fieldwork conducted from October 19 to November 18, 2020

**The 2021 Trust Barometer 27-market global averages (for the general population, mass population and informed public) do not include Nigeria*

27-market global data margin of error: General population +/- 0.6% (N=31,050); informed public +/- 1.3% (N=6,000); mass population +/- 0.6% (N=25,050+); half-sample global general online population +/- 0.8% (N=15,525).
Country-specific data margin of error: General population +/- 2.9% (N=1,150); informed public +/- 6.9% (N=min 200, varies by country), except for China and U.S. +/- 4.4% (N=500) and Nigeria +/- 9.8% (N=100); mass population +/- 3.0% to 3.6% (N=min 736, varies by country), except for Nigeria +/- 2.9% (N=1,125).

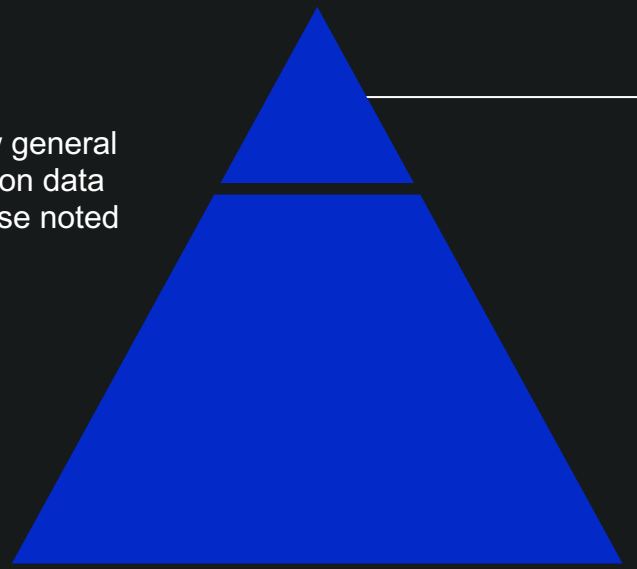
U.S. Post-Election Supplement margin of error: +/- 2.5% (N=1,500).
U.S. Post-Election Supplement ethnicity-specific data margin of error: Non-Hispanic White +/- 3.3% (N=894); all others +/- 4.0 (N=607).

General Online Population

1,150
respondents per country

Ages
18+

All slides show general online population data unless otherwise noted



Informed Public

500 respondents in U.S. and China;
100 respondents in Nigeria;
200 in all other countries

Represents **17%** of total global population

Must meet 4 criteria:

- Age **25-64**
- College-educated
- In top **25%** of household income per age group in each country
- Report significant engagement in public policy and business news

Mass Population

All population not including informed public

Represents **83%** of total global population

U.S. Post-Election Supplement

1,500 U.S. respondents, fielded December 14 to 18, 2020

EMP_ENG. Thinking about your current employer, to what extent do you agree with the following statements? 9-point scale; top 4 box, agree. Question asked of those who are an employee (Q43/1). General population, Singapore.

EMERGING FROM INFORMATION BANKRUPTCY

1

Business: Embrace expanded mandate

CEOs must lead on issues from sustainability and systemic racism to upskilling. Act first, talk after.

2

Lead with facts, act with empathy

Societal leaders must have the courage to provide straight talk, but also empathize and address people's fears.

3

Provide trustworthy content

All institutions must provide truthful, unbiased, reliable information.

4

Don't go it alone

Business, government, NGOs and others must find a common purpose and take collective action to solve societal problems.

Freedom is the freedom to say that two plus two make four. If that is granted, all else follows.

— George Orwell

2021 EDELMAN TRUST BAROMETER

SAMPLE SIZE, QUOTAS AND MARGIN OF ERROR

	General Population			Informed Public		
	Sample Size*	Quotas Set On**	Margin of Error	Sample Size*	Quotas Set On***	Margin of Error
Global	31,050	Age, Gender, Region	+/- 0.6% total sample +/- 0.8% half sample	6,000	Age, Education, Gender	+/- 1.3% total sample +/- 1.8% half sample
China and U.S.	1,150	Age, Gender, Region	+/- 2.9% total sample +/- 4.1% half sample	500	Age, Education, Gender	+/- 4.4% total sample +/- 6.2% half sample
Nigeria	1,150	Age, Gender, Region	+/- 2.9% total sample +/- 4.1% half sample	100	Age, Education, Gender	+/- 9.8% total sample +/- 13.9% half sample
All other countries	1,150	Age, Gender, Region	+/- 2.9% total sample +/- 4.1% half sample	200	Age, Education, Gender	+/- 6.9% total sample +/- 9.8% half sample

NOTE: Questions that afforded respondents the opportunity to criticize their government were not asked in China, Russia and Thailand.

* Some questions were asked of only half of the sample. Please refer to the footnotes on each slide for details.
** For the general population, there were additional quotas on ethnicity in the UK and U.S., and on nationality in the UAE and Saudi Arabia.
*** For the informed public, there were additional quotas on nationality in the UAE and Saudi Arabia.

2021 EDELMAN TRUST BAROMETER

LANGUAGES AND INTERNET PENETRATION BY COUNTRY

The Edelman Trust Barometer is an online survey. In developed countries, a nationally-representative online sample closely mirrors the general population. In countries with lower levels of internet penetration, a nationally-representative online sample will be more affluent, educated and urban than the general population.

	Languages	Internet Penetration*
Global	-	83%
Argentina	Localized Spanish	93%
Australia	English	87%
Brazil	Portuguese	71%
Canada	English, French Canadian	94%
China	Simplified Chinese	59%
Colombia	Localized Spanish	63%
France	French	92%
Germany	German	96%
India	English, Hindi	41%

	Languages	Internet Penetration*
Indonesia	Indonesian	63%
Ireland	English	92%
Italy	Italian	93%
Kenya	English	87%
Japan	Japanese	94%
Malaysia	Malay	81%
Mexico	Localized Spanish	67%
Nigeria	Localized English	61%
Russia	Russian	81%
Saudi Arabia	English, Arabic	92%

	Languages	Internet Penetration*
Singapore	English, Simplified Chinese	88%
S. Africa	English, Afrikaans	55%
S. Korea	Korean	96%
Spain	Spanish	93%
Thailand	Thai	82%
The Netherlands	English, Dutch	96%
UAE	English, Arabic	96%
UK	English	95%
U.S.	English, Localized Spanish	90%

2021 EDELMAN TRUST BAROMETER

HOW WE MEASURED INFORMATION HYGIENE

To determine whether respondents practiced good information hygiene, we measured four dimensions:

1. Regular engagement with news: Do they stay informed?
2. Engagement with differing points of view: Do they avoid information echo chambers?
3. Information verification: Do they avoid assuming something is true simply because it supports their point of view?
4. Avoids spreading misinformation: Do they check information veracity before forwarding content to others?

Each respondent's level of information hygiene was categorized based on their performance across the four dimensions:

- **Good:** Performs well on three or more dimensions
- **Moderate:** Performs well on any two dimensions
- **Poor:** Performs well on one or fewer dimensions

1. News engagement *(does one or more of these several times a week or more)*

- **"**Read, view or listen to news and information produced by major news organizations or publications at the original source**"** MED_SEG_OFTr1
- **"**Read news and information from major news organizations sent to me by others or pushed to me on a news feed, social network platform or application**"** MED_SEG_OFTr2
- **"**Read, view or listen to news and information put out by major corporations regarding important social and political issues and events**"** MED_SEG_OFTr16
- **"**Listen to podcasts or read newsletters or blog posts put out by independent individuals whom I trust to keep me informed about important issues, but who do not work for a news media company**"** MED_SEG_OFTr17

2. Avoiding information echo chambers *(must say they do one or more of these)*

- **"**How often do you read or listen to information or points of view from people, media sources or organizations with whom you often disagree?**"** NEWS_DIS *(weekly or more)*
- **"**When someone you know sends you some information that supports a position that you do NOT believe, which of the following do you typically do with it?**"** POS_DIS *(study thoroughly)*

3. Verify information *(must say they do two or more of these)*

- **"**Confirm that a news story is really true by looking across multiple information sources**"** MED_SEG_OFTr15 *(several times a week or more)*
- **"**When someone you know sends you some information that supports a position you believe, which of the following do you typically do with it?**"** POS_BEL *(use fact-checking sites and/or verify from people I know and/or go to original source material)*

4. Do not amplify unvetted information *(must never do this)*

- **"**Pass on news and information to others without first checking its accuracy or the integrity of the source**"** MED_SEG_OFTr18

2021 EDELMAN TRUST BAROMETER

HOW WE PLOTTED THE INSTITUTIONAL COMPETENCE AND ETHICS SCORES

The competence score (the x-axis of the plot): An institution's competence score is a net of the top 3 box (AGREE) minus the bottom 3 box (DISAGREE) responses to the question "To what extent do you agree with the following statement? *[INSTITUTION] in general is good at what it does*". The resulting net score was then subtracted by 50 so that the dividing line between more competent and less competent institutions crossed the y-axis at zero.

The net ethical score (the y-axis of the plot): The ethics dimension is defined by four separate items. For each item, a net score was calculated by taking the top 5 box percentage representing a positive ethical perception minus the bottom 5 box percentage representing a negative ethical perception. The y-axis value is an average across those 4 net scores. Scores higher than zero indicate an institution that is perceived as ethical.

Respondents were asked:

In thinking about why you do or do not trust *[INSTITUTION]*, please specify where you think they fall on the scale between the two opposing descriptions. *(Please use the slider to indicate where you think [INSTITUTION] falls between the two extreme end points of each scale.)*

DIMENSION	ETHICAL PERCEPTION	UNETHICAL PERCEPTION
Purpose-Driven	Highly effective agent of positive change	Completely ineffective agent of positive change
Honest	Honest and fair	Corrupt and biased
Vision	Has a vision for the future that I believe in	Does not have a vision for the future that I believe in
Fairness	Serves the interests of everyone equally and fairly	Serves the interests of only certain groups of people

2021 EDELMAN TRUST BAROMETER

HOW WE CALCULATED INCREASED LIKELIHOOD TO TRUST BUSINESS

Respondents were asked to evaluate the performance of business as an institution against a variety of behavioral expectations. These performance scores were then incorporated into a discrete choice analysis to determine which behaviors, if done well, would provide the greatest boost to trust in business.

The top five performance drivers of trust, defined in terms of marginal effect on likelihood to trust associated with doing that behavior well, are displayed on the slide.

Respondents were asked:

How well do you feel business is currently doing each of the following? Please indicate your answer using the 5-point scale below where 1 means the institution is “failing at this” and 5 means the institution is “doing this very well”.

Full list of behaviors examined (top 5 highlighted in bold)

1. **Meeting your overall expectations for how they should be responding to the health and public safety aspects of the COVID-19 pandemic**
2. Meeting your overall expectations for how they should be responding to the economic consequences of the COVID-19 pandemic
3. Partnering with other organizations and societal institutions, even if they might be competitors, to mount the strongest and most effective responses possible to our societal challenges
4. Stepping in to fill leadership voids and policy gaps left by government
5. Doing everything they can to ensure the safety and wellbeing of our people and communities
6. Identifying and addressing systemic inequalities, unfair treatment, and prejudices within society and in the business world
7. Shaping our culture for the better by inspiring positive change in how we see and treat ourselves and each other
8. Developing new solutions to help address our country’s problems
9. Working to benefit their employees, customers, and local community, in addition to their owners and shareholders
10. Putting people before profits
11. **Being the guardian of information quality, working to ensure that only true, verified information is being shared and circulated**
12. **Driving the economic prosperity of our country**
13. Working to ensure that our workers have the skills necessary to be competitive in the global job market
14. Investing in the local communities where they are headquartered or have large production facilities/offices
15. **Taking a long-term perspective when making business decisions versus focusing on short-term profits**
16. **Embracing sustainable practices across their business**
